ZRHE preceding figure is given to represent the in' SENSIBLE PERSPIRATION It is the great Evacuation for the impurities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface. The above goods will be made to order on the sick .- Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us. The language of Scripture is, "in the BLOOD is the Life." If it ever becomes impure, it may be traced directly to the stoppage of the Insensible Perspiration Thus we see, all that is necessary when the blood is stagnant, or infected, is to open the pores, and it relieves it Coach, Gig, Buggy and wagon HARNESS, Collars, Whips, Stirrups, Bits, Spurs, &c. &c. In other words, if we cat and drink eight pounds per day, we evacuate five ounds of it by the Insensible Perspiration This is none other than the used up particles of the blood, and other juices giving place to the new and fresh ones. To check this, therefore, is to retain in the sys-

Hence, a stoppage of this flow of the juices, originates so many complaints. It is by stopping the pores, that overwhelms mankind with coughs, colds, and consumption. Nine-tenths of the world die from diseases induced by a stoppage of the In-

ensible Perspiration. Let me ask now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores, after they are closed. Would you give physic to unstop the pores?
